DEPEW COMPANY PAYS DEBT. TO THE EQUITABLE SOCIETY

Sum of \$232,830, Including Interest and Principal, Covering Original Loan is Given Over to Life Insurance Company-Improve ment Concern Takes Over Property Which Was Held as Collateral-Senator Particularly Denies Any Wrongdoing in the Affair, and Strives to Correct What He Calls Misapprehen-

EMBARRASSMENT OF COMPANY COULD NOT BE FORETOLD.

New York, Aug 31.—The announcement was made to-day by the officers of the Equitable Life Assurance Society that the indebtedness to the society of the Depaw Improvement Company was paid this afternoon, the principal and interest amounting to \$225.56.82.

The correspondence incident to the afternoon, the principal and interest amounting to \$22,56.52.

The correspondence incident to the transaction was also, at the suggestion of President Paul Morton, made public to the end. Mr. Morton said, that an inspression unjust to Senator Chauncey M. Depew might be removed.

The correspondence consists of three letters of even date, the first addressed to Mr. Morton by Henry R. Anderson, attorneys for the Depew Improvement Company, announcing that the Reorganization Committee of the Depew Improvement Company, announcing that the Reorganization Committee of the Depew Improvement Company, announcing that the Reorganization Committee of the Depew Improvement Company, having perfected the Litle to the property not covered by the Equitable mortgage, was prepared to take over the property, which secured the loan, paying in cash to the Equitable the face of the loan and interest.

The second letter, also addressed to Mr. Morton, is from Senator Depew, who states explicitly his part in the transaction between the improvement company

tion between the improvement company and the Equitable Society, and points out what he declares are inaccuracies in pub-lishments, through which a grave inlishments, through which a grave in-justice has been done him.

DEPEWS STATEMENT. Among other things Senator Depew Among other things Senator Depew says:

"I had nothing to do with the organization was determined upon, and though there were unavoidable delays the plan was progressing as rapidly as possipany, not even authorizing the use of my name, nor was I in any way connected with it until, five years after its incorporation, I ourchased for \$100,000 in cash a one-lifteenth interest in the stock of the company. The company at that time had a tract of land consisting of about 2.760

embilvided lots and 255 acres not subdivided.

The Equitable Life loaned 255,000 upon LSS of the company's lots. These lots were relected as constituting the most valuable tracts there. At the time the mortgage was made these lots were selling, the lowest at 250 and the highest at 250 each. The valuation placed upon the plot by the Equitable appraisers at that time was 250,70, and upon the balance of the land ewed by the company 250,600, a total valuation of the property of 250,70.

The Amappraisal was at the same time made and submitted to the Equitable by William B. Cutter, one of the leading real estate men of Buffalo, in which he appraised the value of the lots loaned on as 150,600.

"In 1901 a real estate depression set in in and about Buffalo, which lowered values and checked the growth in the town of Depew. It was at this time, October 7, 1901, and not when the loan was made, in January, 1904, that the insurance department appraised the part of the property covered by the Equitable mortgage at 112,000."

WARNER BOOM GETS | RETURNS TO LIFE ON

REPUBLIC SPECTAL Joplin, Mo., Aug. 21.—United States Sen-tor William Warner, debonair and en-oring himself, ran into a presidential com when he was a guest of honor at a ecoption tendered to him and Congress-nan Shartel by the Fifteenth Congres-ional Committee and prominent Repub-icans.

sional Committee and prominent Republicans.

They came from over the entire district, ready to give the Major a rousing send-off on his way to the Baxter Springs, Kas., reunion, thence to the White House.

Frank E. Miller of Neosho, chairman of the committee, carried off the programme, with the assistance of State Senator Meindoe of Joplin and former Congressman James Morgan of Lamar and others, who were in earnest to get into what they thought was the band wagon. Senator Meindoe was the first speaker, He said:

MAT HAVE MADE MISTAKES.

"I may have made mistakes in some of my legislative votes, but I know that I made no mistake in helping to elect Major Warner. After his election, everyone was satisfied, not only Republicans, but the Democratic permeerats.
"I have heard it said lately that it "I have heard it said lately that it "I have heard it said lately that it seemed that politics had been dropped, apparently. If Major Warner had not been elected, I am sure there would have been politics in Missouri.

"He is the best Senator Missouri has had, and in three years the Regublicans in this district expect to see him in the White House, He can be nominated and he can be elected if he is nominated."

Everybody applauded. Major Warner, who was satting near, shook his head and said:

"That is a little too much."

Former Congressman Churies Morgas was the next speaker to boost Warner for "PRESIDENTS ALL WARRIORS."

"The old soldiers have a right to be en-thustastic," he said. Every President who has been entered by the Republicans since the war has been a soldier of the Civil War, with the exception of Theodore Roosevelt.

"Looking over the present field of presidential possibilities, I can see no man as available as Senator William Warner. He may be the last of the 'old guard.' but no man stands the chance that he does."

Another round of appiause greeted this rosy prospect. Senator Warner blushed and smiled.
